

# Ready for 2011

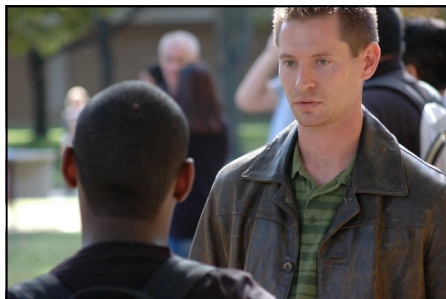

Update from Jacob Burow - January 2011

JUSTICE  
FOR ALL

My Holidays have been blessed and relaxing, but I am chomping at the bit to return to our trainings and exhibits.

I'm excited to be scheduled for giving talks in our training seminar, *Abortion: From Debate to Dialogue*. I'll be working on learning those talks prior to our Arizona trainings. Public speaking is something that I've not had much chance to practice, but I think I will enjoy.

Our schedule this spring will take me to Arizona, Texas, Colorado and California. I'd appreciate your prayers as I travel on the 9th of this month to Missouri for JFA's staff and board members retreat. It will be a time of learning and exploring how better to accomplish our mission, "Train thousands to make abortion unthinkable for millions, one person at a time." We want in 2011 to grow exponentially in our effectiveness.

On a side note, I had something cool happen when I was vacationing with friends and family in Colorado just before Christmas. We were at Wolf Creek ski resort, and I was riding up the lift with my snowboard and a stranger. We got to chatting, and soon she asked where I'm from and what I do. I grinned beneath my ski mask, wondering what she would think when I told her. I said I work for a pro-life non-profit, and was pleased when she asked for more details on what we do.

Turns out, she lives in Denver where we go frequently with our exhibit, and is a family practice doctor there, and extremely pro-life! To top it off, she says that she wants more training on pro-life apologetics, and loves our model of ambassador training and wants to join us!

*Anthony Whistler, a friend who came up to UNT to help JFA.*

Check out our 2010 results... →

I'm  
over  
half  
way  
there!

Here is a summary about our recent trainings. In 2010, the JFA team gave:

- **34 ADD seminars** (includes a few shorter interactive seminars) in which **1357 people attended**.
- Members of the JFA team also gave 38 presentations to approximately **3180 people**.

The JFA team also did outreach events on 13 campuses in 9 states (GA, TN, CO, CA, LA, NE, OK, TX, and AZ)

At those campuses, **563 trained volunteers** helped create dialogue during our outreaches!

In addition, in 2010,

- 23 people participated as mentors in the JFA training program.

- 13 people actively sought training certification.

This is what excites me about JFA, and why I want to work with them!

God Bless,

*Jacob Burow*
