

“My Eyes Were Opened to the Reality of Abortion”

It's been a busy spring for the whole staff of Justice For All! In fact, on the back of this letter I have listed all of JFA's spring events, including those involving staff members other than myself. I did this to show the amazing reach that our staff of nine full-time trainers has had so far this year, stretching all the way across the country!

Teaching at our recent seminar at Ellerslie Mission Society in Windsor, Colorado

Allow me to highlight just one of those events. Here are some comments from a recent seminar we held at Ellerslie Mission Society in Windsor, Colorado for Ellerslie students and other local participants (75 total):

I have not thought about the seriousness of abortion before today, or the impact that it has to the extent that I now understand.

- Anna

It was hard to see the images of abortion, but the Lord used them to really break my heart for abortion.

- Sarah

It really encouraged me, especially in realizing that this subject points me back to Christ in that we were made in the image of God!

- Jessica

My eyes were opened to the reality of abortion and those involved. I appreciate the emphasis on love and valuing those we talk to as much as the child in the womb.

- Talitha

Though the pictures of abortion were hard to see, that was a huge thing and really impacted me.

- Dorian

Another thing that happened on that trip is that one of my long-time monthly supporters got an opportunity to attend our seminar and outreach at Colorado State University. Here is what she thought after seeing our work firsthand:

I had the opportunity to attend a Justice For All seminar and outreach at CSU in Ft. Collins, CO in April. It was a very meaningful experience! The team is very well trained and full of compassion. They taught me how to use questions when having a conversation that doesn't have to be defensive or out of control, but rather with understanding and compassion. I witnessed them interacting with students in a very calm and caring way. Even though some students would become irate with them, they would listen, ask questions, stay calm and in some cases were able to change their way of thinking. I was very encouraged by their approach and I feel like they are having such a positive influence on the college campus. I am very privileged to be a part of Justice For All by giving them my support through prayer and finances.

- Becky

Justice For All Spring 2017 Equipping and Outreach Events
