

“My Eyes Have Been Opened Even More”

We were given a whole day to equip the entire high school at Aquinas Catholic in Nebraska.

We had an amazing trip to Nebraska in January where we equipped over 200 people in 3 days! It was the first trip for me since my heart surgery, and I was able to make it through with no problems.

We had the rare opportunity to equip everybody in the entire school at Aquinas Catholic. We led the middle schoolers through interactive workshops for half a day and the high schoolers for an entire day. I was blown away by the attention these kids gave throughout these lengthy events.

Here are some of the comments from the kids who attended:

It was very informational getting to learn about abortion. It is very important to learn about this at this age.

- A middle schooler

I think it was a very good presentation and it probably changed many people's thoughts on abortion.

- A middle schooler

I have always been very passionate about the pro-life movement and am a member of Teens For Life. After the talk, my eyes have been opened even more, even though I know abortion is evil . . . The [in utero video images] especially struck me and melted my heart. I thank you for spending your time changing lives for the better.

- Natalie

I thought this was really helpful. I've always wanted to be able to talk to people about abortion but I've never known how.

- A middle schooler

I really enjoyed the seminar, and I feel like I can have much better conversations with both pro-life and pro-choice individuals.

- Mara

I'm happy JFA came to my school. They opened my eyes about abortion. It is a serious issue. At some point in my life I would love to join and talk to people.

- Jesse

Aquinas Catholic also allowed us to equip all of its middle school students.

We had a great socially-distanced seminar at St. Peter's Catholic in Lincoln, Nebraska.

Here is an interactive exercise in which each person plays the role of an animal or a human. The audience helps us decide which beings would have equal rights given a certain explanation of equal rights (e.g. pain sensation, rationality, humanness).
