

“I feel equipped and encouraged and even excited!”

We were given a whole day to train students at Ellerslie Mission Society in Windsor, Colorado as we have been doing every semester for the last few years.

We had a great fall! We equipped hundreds of people and conducted outreach events at eight schools. It felt amazing to be back out and meeting more people in person again!

Meanwhile, we still have our online training program running alongside our in-person events, so we can still reach people anywhere in the world!

Here are some comments from people who attended equipping events this fall:

I am coming to realize just how important it is to reach out to people who are thinking of having an abortion. I used to think that I could not make much of a difference so why even try? But I have come to realize that saving even one life is worth going out and talking to these women even though it is outside of my comfort zone.

- Abby

I used to look at the topic of abortion as a big rock that I could not move. Now I learned that I can now slowly chip away at it.

- Mariah

God's really been teaching me how to love correctly lately. I get very passionate about abortion, so something God's been teaching me today is how to take that passion he's given me and give it back to him so he can use it through me. I've been doing it without a lot of love and I've felt convicted of that.

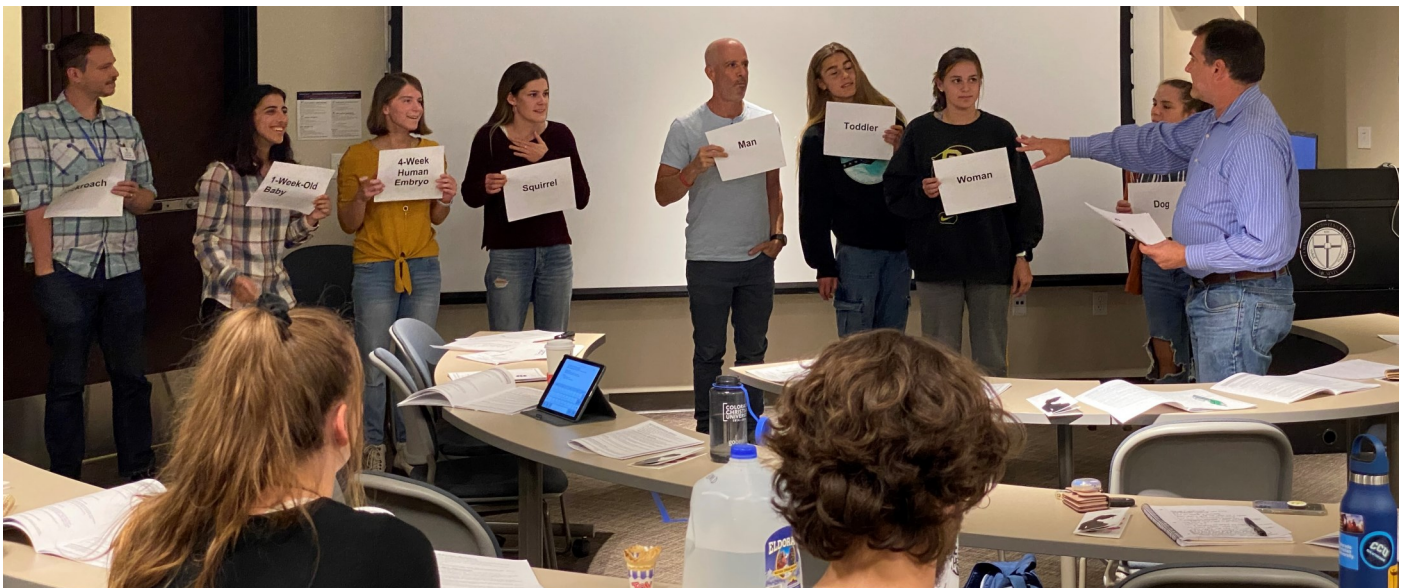

- Lydia

You have met a concern I didn't know how to express: it bothered me when Christians just made intellectual arguments and neglected the life of the mother and all the other difficult aspects of this situation. I have never had a framework or seen an example of this being done in love before. I feel like I have the resources now to take a stand against something that is wrong while demonstrating love and showing care. I LOVE the scripts and additional resources. You made this hands on and practical/tangible. I was so thankful for this training! I feel equipped and encouraged and even excited! Thank you so much!

- Allison

At Christian Heritage Academy in Oklahoma, for the first time we equipped the whole high school rather than just the Salt and Light club as we have in previous years.

At Colorado Christian University I taught the Equal Rights Argument to students with this activity.

In Colorado we taught this Catholic high school youth group. As you can see, some students were more interested than others!
