To Whom It May Concern:

I would like to introduce to you my friend John Michener who is a full-time missionary with a wonderful ministry called Justice For All. Because of the nature of John's work, I think you may have an interest in supporting it.

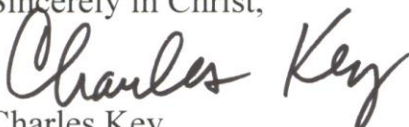

Justice For All is an organization that teaches the truth about abortion to high school and college students across the country. For untold millions, the mother's womb has become the silent death camp of our day, resulting in over 3,200 deaths every day. According to the Guttmacher Institute, the organization providing statistics for Planned Parenthood, the total number of abortions per year in the United States alone is 1.2 million per year. At over 51 million since Roe v. Wade, abortion is easily the worst genocide in human history.

Justice For All begins each conversation with the humanity of the unborn, but the dialogue reaches beyond abortion. As a group of devoted Christians, they call the hearts and minds of students back to a relationship with their Creator. They are doing the Lord's work as they teach, counsel, and evangelize students.

JFA's ministry is unique and powerful. John and Justice For All are constantly attaining opportunities to educate those who are most vulnerable to the lies of our culture. I believe that JFA uses the best methods of enlightening people about abortion, all the while providing them a safe, compassionate person who truly listens to their perspective and answers their concerns from a God-centered worldview. The gospel is interlaced in almost every conversation.

I have known John for more than a decade and count him a personal friend. Our family has chosen to support John as a domestic missionary from our missions budget. We heartily recommend John without any hesitation. When John contacts you, I urge you to give him the opportunity to make a presentation. We are blessed to be a part of his work, and we believe you will be, too.

Sincerely in Christ,

Charles Key
