

# Over 500 People Equipped in Nebraska!

### Nebraska Trip By THE NUMBERS:

12 Total Events

294 people came to one of our 4 presentations.

201 people came to one of our 6 workshops.

45 people came to one of our 2 seminars.

Over 500 people were equipped during the entire week of events.

In October several members of our staff ventured out across Nebraska to equip locals to make abortion unthinkable with compassion and clarity in their spheres of influence.

For part of the week-long set of events, we had two separate teams traveling across the Cornhusker State, but later in the week we joined together for several key events as one larger team.

We thank God for the many open doors, the hard work of Nebraska locals, and the hard work of Rebecca Haschke (JFA trainer from Nebraska) that made it all happen. The side bar to the left shows some of the key numbers related to that eventful week, and below are several quotes from high school students who attended these events in Nebraska.

Attendees at the University of Nebraska-Kearney practice sharing the reality of abortion at our workshop hosted by the local pro-life student club.

- "I am pro-life and I have marched in Washington D.C. with the pro-life march the past two years. I enjoyed the experience so much, but [I] never knew how to communicate with others [about abortion]. Thank YOU for teaching me how to talk about [the] pro-life [position] to people who are pro-choice."
- "This presentation gave me a new outlook. I wasn't convinced about being pro-life. I thought it was a Catholic thing. Now it's also scientific. The pictures, videos, and stories really helped."
- "This presentation was very good. My friend [at our school] went from being pro-choice to pro-life from this."
- "This was very helpful! I knew abortion was wrong and kind of how to [talk about] it, but I don't think I could've made [my points] as convincing without this [seminar]. Thank you so much for sharing."

JFA team member Catherine Wurts addresses our crowd in North Platte, NE.

Defending human value together,

Jonathan Wagner
