

My trip to CA went well but I wasn't able to see many of you. I'd love to catch up by phone or email.

JUSTICE
FOR ALL

These Siblings Stepped Up!

We were scheduled to train college students in Fort Collins but I figured it wouldn't hurt to give a few high school students an opportunity to take their next step.

Ross & Karris both attend Heritage Christian HS.

We had trained brother and sister, Ross* and Karris** Bryant, last fall in preparation for our Colorado State (CSU) event. They showed great desire to share their faith and the truth about abortion during and after the outreach.

The question was, "Were they ready to do more"?

I've often said that a great "next step" for everyone is to challenge our family and five closest friends with the truth about abortion.

I gave this challenge to Ross and Karris and they stepped up! They brought their sister, mom, dad and five of their friends to our "Abortion: From Debate to Dialogue" seminar this past spring.

Everyone had a great time. Many of them have already connected us with churches and leaders for future training opportunities.

Will you challenge family and friends like Ross and Karris did? I'll help you!

Your support makes it possible for me to meet, train, and continue to mentor students like Ross and Karris. We'll have to wait and see how many lives will be changed in Colorado and beyond through your gracious investment. THANK YOU!

***Ross** worked alongside his sister Karris by using his gifts and encouraging her gifts. It is great to see siblings working together for the sake of ministry. **This is just one of the ways Ross lives out his faith.** This summer he is going on a missions trip overseas and will be involved with several projects next year.

****Karris** is one of the most motivated students I've ever met. Among high school and college students I've worked with, Karris has taken her Christian walk and the call to defend the unborn and other defenseless humans more seriously than most. **She is just now entering 10th grade!**

Defending Human Value together,

Jonathan Wagner
