

Our Recent Volunteers Weigh In

Quotes from Wichita, Boulder, Norman, and Stillwater

Trips to Boulder and Stillwater have kept me busy in October. I've also continued my volunteer group in Wichita and a small JFA team visited Norman. This month I've enclosed an **Impact Report written by John Michener and introduced by our Director, David Lee.** Following, I've also included reflections from our recent events.

"I just wanted to say thanks to all the advice and help you gave us over the summer on how to dialogue with people. I've been able to have a few conversations with people about God on campus and I would not have been able to have such great conversations without the information I learned over the summer from JFA. Thanks for putting in time and effort to teach us, and I just wanted to let you know even little things like classes on Tuesday evenings have a big impact!" - **Wichita, Kansas college volunteer**

I learned that this CU Boulder student was passionate about defending life and I was able to give her some tips to help her make a greater impact.

"I believe that this experience really opened my eyes to the topic of abortion. Personally, I am pro-life but I am glad I now see why others are pro-choice. I think that this opened a lot of hearts and minds to the truth. I am so glad I got to be part of this experience." - **Norman, Oklahoma high school volunteer**

"I thought that bringing a lady who had a previous abortion but changed her view was a good idea. It showed me that people can really change their minds about abortion." - **Norman, Oklahoma high school volunteer**

While in Colorado, we had four "Abortion: From Debate to Dialogue" seminars. Above, in Colorado Springs, Rebecca and Sarah walk a group through a role play activity.

"I learned I need to step out of my comfort zone, and that I am not doing it enough. I was convicted to share my faith, and I think that opportunities like this are a good place to start." - **Fort Collins, Colorado high school volunteer**

"I really appreciate your work to come talk to us and help the (college) students reason through this very socially relevant issue. I have learned so much over the past three years you guys have come to visit, and I look forward to helping you on campus (for the CU outreach)." - **Colorado high school volunteer**

"I am glad I was challenged to do this because I wouldn't have on my own. People are much more open to talk than I thought. This (issue of abortion) is an important topic and we should be willing to listen to what others think." - **Colorado high school volunteer**

"I loved my experience with JFA. I felt well prepared and more confident. It's so cool to see how this has grown me in so many ways." - **Oklahoma City high school volunteer**

"This outreach helped me 'get out of my shell' and approach others about important topics. I appreciate the work that is being done. Sometimes It feels hard trying to make a difference for my faith and your organization helped me to do so." - **Oklahoma City high school volunteer**

"The impact of this on me was amazing. I saw how much we need to bring light to this issue (of abortion)." - **Oklahoma City high school volunteer**

Jacob Nels (left) engages students at the OU poll table.

"God used this to once again show His grace, strength, courage, power, and His preparation of hearts." - **Oklahoma City high school teacher / volunteer JFA mentor**

Prayer Requests and Praise Reports—November 2012

- Praise God for the eight seminars we were able to have in Colorado and Oklahoma this fall. More than 200 people were trained through the events.
- Pray for Ashley, Luke, Dusty, and Rebekah from Stillwater. Each of these students talked with me about their desire to stop abortion by getting involved with their local pro-life club, getting trained, and stepping out to challenge others graciously. Please pray that they will continue to have this desire and that they do reach out.

Defending human value together,

Jonathan Wagner
