

JUSTICE
FOR ALL

Preparing Front Range for the Front Lines

"Our elementary students - and teachers - were amazed at the video of unborn babies filmed in utero that Mr. Wagner presented during chapel. It made it difficult to ignore the fact that these unborn babies are persons, created by an awesome God, and that each of our lives began in this very way! One of our 3rd graders told me afterward that she thought it was cool that God made one person to live and grow inside another person!" --
Julie Melton FRCS Elementary Principal

On September 19 I spoke to 375 students at Front Range Christian School in Littleton, CO. I gave the Kindergarten-6th grade students a short Bible lesson on the value of human life before showing a fetal development video that captivated each of them. The kids were amazed by the rapid growth of the unborn baby in the womb.

During the assembly for 7th-12th graders I was able to communicate the mission of JFA which is to train them to train others!. We tackled the questions, "When do we become human?", "Is abortion a humane practice?", "should wantedness determine value?", and "how can we each make a difference on the issue of abortion?".

"This presentation really caught my attention. I have always wanted to protect unborn rights but I didn't know how. Thanks JFA. Now I know." - *FRCS Junior*

**Mission of Justice For All: Train thousands to make
abortion unthinkable for millions, one person at a time.**

Life Changing Discipline

Several weeks ago a woman volunteered at our office in order to fulfill a community service requirement for getting a traffic violation. She was pro-choice when she arrived. She spent most of the time with another JFA intern named Catherine but I was able to spend some time with her during the 10 hours of her service period that spanned several days.

Here is her reflection on her experience at the JFA fulfilling her court ordered community service hours: "My experience volunteering with Justice For All has truly been a life changing experience for me. I am a 27-year-old social worker that has always advocated for the rights of the born. However, going into my experience with Justice For All I never stopped to think that I owe the same amount of passion that drives me to be an advocate for the born to the unborn. Justice For All gave me the necessary..... ----->

It will take an eternity for the unborn to defend themselves

...tool and education which helped me to realize that the unborn is just as valuable as a 2-year-old or even a 45-year-old person. It is my duty not only as a Christian, social worker and as a human being to advocate, preserve the rights and self-worth of another human being which includes the unborn. The information that I have been given will allow me to advocate by creating comfortable conversation that will hopefully result in saving lives, changing hearts or by just allowing the issues to be heard. I thank Justice For All for a wonderful experience and a chance to help save another life." - Monique

Prayers and Praises

Intern Matt McKinley is coming soon! Matt (below in red), from Albuquerque, New Mexico has been raising support to join JFA for two years as an intern and is just 10 % away from being finished. He has more experience on campus than I do (I have about 15 campuses under my belt) because **his participation goes back 6 years to 9th grade!**

I've been able to help mentor, encourage, and challenge Matt in his support raising. This process was fresh in my mind from last year so I was able to effectively help. Matt has been an encouragement to me because he has made a full effort to build a group of partners for this ministry that will send him.

Praise God for the assembly at Front Range CS. The students were attentive and seemed ready to bring truth about abortion to their spheres of influence. Pray that many will join us as volunteers next spring at the Auraria campus in Denver.

We trained 88 students at Focus on the Family institute in Colorado Springs, CO and 75 high school students from 3 area Christian high schools at Faith Christian Academy in Arvada, CO during the University of Northern Colorado outreach at Greeley, CO.

Monique (See reflection on reverse and above) moved to Texas just after going through our training. Pray that she will have many opportunities to share her story and for friends in Texas that will encourage Monique.

Defending Human Value together,

Jonathan Wagner
