An Invitation to Partner with Me

LILY SCHRACK'S JFA UPDATE
November 2026

Dear Friend,

"You just blew my mind right now." A student I'll call Jamie expressed this to me toward the end of our conversation. She had stopped to write on our free speech board at the University of Missouri – Kansas City. When I initially asked her about her view, she told me she was pro-choice and heavily concerned with a mother's bodily right to refuse pregnancy. After many questions that led to discussing the unborn as a whole human organism who deserves equal rights, she was truly mind blown. This conversation ended so well, and seeing her eyes light up to see the truth for the first time was such an encouragement.

Over one million abortions take place every year in the United States. This is a tragic reality and a reminder of the brokenness surrounding us. Conversations like the one I had with Jamie are crucial in order to protect the sanctity of human life. My heart for the unborn and the preservation of each life increasingly grows. I am taking action to shift our culture's view on abortion, one person at a time. I invite you to come alongside me.

My appreciation for work against the injustice of abortion began in 2024 while attending a summer conference with Summit Ministries. Although I have pro-life roots, this experience truly opened my eyes to the depths of destruction abortion brings. Since then, I have been continually striving to learn how to better defend children in the womb. I was introduced to Justice For All (JFA) in the spring of 2026 while attending Summit's Gap Year program. It was there that I participated in one of JFA's *Abortion*: *From Debate to Dialogue* equipping seminars, and had the opportunity to conduct outreach at the University of New Mexico. This event sparked in me an even greater interest in pro-life work.

Since then, the Lord has opened the doors for me to pursue this work full time. I have been interning with JFA since August, and during these months I have been able to engage in numerous meaningful conversations. I am excited to announce that I have accepted a Training Specialist position! I am abundantly excited for this new season, and cannot wait to see how the Lord uses it.

JFA is a non-profit, pro-life organization that seeks to train thousands to make abortion unthinkable for millions, one person at a time. We strive to make the abortion conversation civil and productive. Scripture tells us to speak truth in love (Eph 4:15), and JFA trains Christians to do just that. JFA hosts interactive training seminars nationwide to equip individuals to have effective conversations about abortion. In the days following the seminar, participants can volunteer during outreach events at local college campuses alongside JFA trainers.

My Role at a Glance

- Speak and train participants at JFA's interactive workshops
- Mentor breakout sessions at workshops
- Campus Outreach: Have in depth conversations with people of differing views, in hopes of changing minds on abortion and presenting the gospel when the opportunity arises. Outreach also includes mentoring volunteers!
- Plan local and nationwide events
- Continue to study arguments and questions that surface during outreach

Another conversation I had recently is a good example of how JFA's training can make a difference. A student I'll call Tyler approached our poll table at Indiana University and signed "yes" to the question, "Should abortion be legal?" After some dialogue, I noticed that even though Tyler truly cared for the safety of others, he didn't understand the depths of abortion. After bringing up many justifications for keeping abortion legal, and hearing my rebuttals, his face lit up, and he said, "That's true; good point." I asked if he had any pushback or if he thought I was missing something. He simply said, "Honestly, no, I think I would be on the no side now." Our conversation continued, and we agreed that both born and unborn children are not valued enough. I am grateful for the humility Tyler had to look past his own view and change his perspective right in front of me.

My desire is to continue to change hearts and minds on abortion. I ask that you would prayerfully consider partnering with me to do so. JFA relies on the Lord to provide through generous supporters. I invite you to join me on this mission by becoming a financial supporter.

I have enclosed a pledge form that gives you options for supporting my work with JFA. You can also donate online at **jfa1.org/donate** (select "Lily Schrack" in the drop-down designation menu). Since this is my full-time position, my monthly goal is $4800. I truly appreciate your prayerful consideration. I plan to call you in the coming weeks to answer any questions you have regarding the support process and JFA's work! Please lift me up in prayer as I continue to equip Christians to defend life and interact with differing views, and as I develop my support team.

It is not through us alone, but Christ working in us.

Blessings,

Lily Schrack

"Defend the poor and the fatherless: do justice to the afflicted and needy." - Psalm 82:3
