INTERACTIVE ONLINE WORKSHOPS

My eyes were opened through the excellent Justice for All [Online Workshop Series]. As a result of the training, I now feel more confident in responding to pro-choice advocates and conducting non-confrontational fact-based discussions and conversations. — Tim

Some of the best training I've received in a long time. The sessions [were] well presented with good logical and useful information. Instructors were second to none and were willing to listen and take time after [each] session to have a Q&A for things that weren't covered during the session. I would recommend this training for anybody who is pro-life. — Robert

Having been in the pro-life movement since 1980, this training is nothing like I've ever experienced. At our local [pregnancy] center, we are making it essential for our Client Advocates (in addition to their regular training). — Mike

JFA's [Online Workshop Series] was extremely helpful in giving me a useful toolset for talking about the pro-life issue as a dialogue, rather than a debate. They gave some really practical points to consider and allowed us opportunities to practice with each other. I totally recommend this for anyone who wants to share the pro-life position while showing every individual love and respect. — Alena

Oh my goodness...I love, love, love these conferences. I wish more people could attend. How many years have I been involved in pro-life? 30? 40? And I am learning so much from you all! — Sheila

This was such a good life-changing course. It opened my eyes to the power we each have to start meaningful conversations that can change the tide of our pro-abortion culture. This is very needed! — Mary
