To Whom It May Concern:

The Alliance Defense Fund has enjoyed the opportunity to work with Justice For All (JFA) on several occasions, and I heartily recommend their ministry.

This dynamic organization has a proven track record of success, which I have been fortunate enough to witness firsthand.

While many sit quietly by as our freedom to speak the truth is unconstitutionally restricted, JFA firmly asserts its free speech and equal access rights, both in the courts, and in practice.

Their bold proclamation of the truth has not only saved the lives of unborn children, it has also saved countless men and women from the pain which inevitably follows the decision to abort.

JFA deals with an incredibly sensitive topic. Handled poorly, the consequences could be disastrous. However, the staff and volunteers of JFA are carefully trained to demonstrate love and grace to all. The result is a wonderful opportunity to be salt and light to a world that needs it desperately.

JFA has been blessed with some wonderful victories in the pursuit of its mission to change hearts and save lives. The Alliance Defense Fund is blessed to partner with JFA, and I trust you will be similarly encouraged and strengthened by your experience with them.

Yours for religious freedom in America,

Alan E. Sears
President, CEO & General Counsel
