Dear David,

We were absolutely blessed and impressed with Justice For All outreach at Texas A&M University in March. The display graphics were superb and the resolution was exceptional. The JFA staff ministered powerfully under the anointing of the Holy Spirit. They were clearly very well trained.

Many students were deeply touched and challenged to re-examine their pro-abortion stance. Working as faculty members at the medical school and being exposed to students that receive a very biased view of life, we know that the message you brought was sorely needed.

We admonish you to not become "weary in doing good" and to continue God's great work through the ministry of JFA.

We love you.

In Christ,

Haywood J. Robinson, M.D.

Noreen Z. Johnson, M.D.
