Justice For All Reflection  
November 2008

This was my first experience with Justice For All (JFA) and it will be difficult to express all of my appreciation for each member of your team. I was amazed at the organization, the content of the training and the love of Christ I observed in each team member. There was a level of honest, deep love for people on the face of each of the JFA team members as they discussed with college students on the campus of the University of Oklahoma (OU).

As for my personal experience, God moved in my life in profound ways. First, He gave me a deeper love for the children that are being killed everyday in America. Second, he gave me a power in my testimony as I shared with those who did not agree with JFA or with life in general. Third, he gave me a love for the lost people that came to see the exhibit.

I experienced anger, disbelief, sadness, despair and joy each day I was at the Exhibit. I talked to Christians and non Christians. Those who don't believe showed total depravity in their answers as regards to life. However, I did talk with a student named Jared who listened and I shared the gospel and we did exchange phone numbers. So, in that regard, it was a positive day.

As far as sharing with Christians, there was joy as I heard they too were also fighting the fight, but there was also sadness and disbelief as I heard that some were still "pro-choice." Honestly, I wanted to take hold of those who proclaimed to know Christ, but still want "choice", and shake them and scream why, but I didn't.

God gave me the humility to answer and discuss without shouting. I attribute that all to him.

I am thankful to JFA for stretching me and our students. I hope they can come back next year to the Oklahoma City Metro area. I will push our church, Trinity Baptist to be involved.

What a blessing! Thank you for continuing the fight for the unborn.

In Grace,

Chris Haynes
