"It is just a clump of cells. It is not a baby. My body, my right! Have you ever wanted to know how to respond in a loving, Biblical way to these questions? Have you ever wanted to train your group, youth, college students, or church? Let me suggest you contact Justice for All (JFA). This group has been training hundreds of people for years in the tactics of speaking the truth in love about the issue of abortion. I know of no other group that does such an outstanding job of training and then guiding teams of people through the actual process of dialogue. If you have one day and JFA training [team] comes close to you, don't miss the opportunity. Our church and specifically college students have been equipped to now be on campus and have meaningful, life changing conversations."

-Chris Haynes, *College Pastor*, 2015 *Note: Chris is the college pastor at Trinity Baptist Church in Norman, OK.*
