

Justice For All Reflection  
Catherine Wurts, Ventura, CA, June 2007

I first learned of the [Justice For All \(JFA\) campus exhibit program](#) five years ago. I'm a pretty non-confrontational gal and just wrote them off as alarmist pro-life radicals.

Last year, though, a friend invited me to JFA's training called "Abortion: From Debate to Dialogue". The title caught my eye. I went, still skeptical.

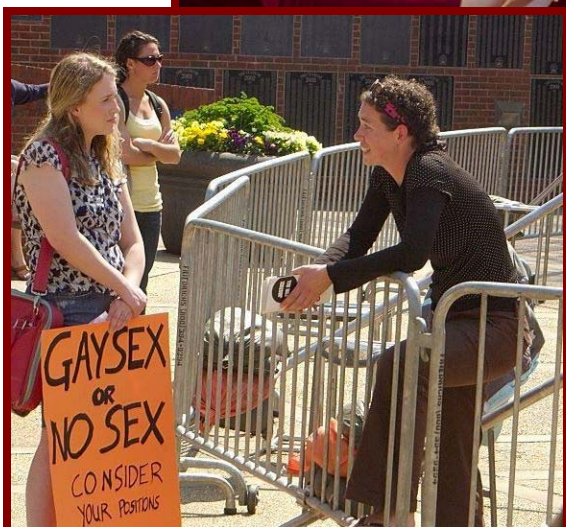

That day, I witnessed the JFA staff's unique and compassionate approach first-hand. They taught us to ask questions, genuinely listen to the answers, and then to share the truth about abortion in a loving way. The simplicity and effectiveness of this type of dialogue truly amazed me.

Having since volunteered with JFA on four university campuses across the country, I've witnessed many, many hearts change about abortion. I now believe passionately in the work JFA is doing to engage the youth of our culture on their terms, without apology and without malice.

God is using JFA's student outreach to change thousands of hearts, and [saving innocent lives](#) in the process. This experience has brought me into a new way of living as a disciple of Christ.

June 15, 2007

Dear Friends of Truth and Life,

Over the past 15 years, I've had the privilege of training thousands of students, as well as young to older adults. Catherine is one in a thousand.

Each JFA training seminar, like the one that Catherine attended in San Luis Obispo (2006), brings volunteers who hear and respond to God's call for helping the "least of these"—unwanted, unborn children and their families at risk to abortion.

The apostle Paul likened those who represent Christ within their culture as ambassadors. Catherine's entreaty and diplomatic manner prompts students viewing the JFA Exhibit to actually **want** to talk with her about it!

Catherine's interest in helping JFA become an even more effective outreach program prompts her and us **to invite you** to help her raise the necessary financial support for her to do a short-term missions project with JFA this summer.

I've asked Catherine to provide logistical management to our first-ever revision of the [JFA Exhibit campus presentation](#), which has been in use since 2000. We have scheduled her to arrive in Wichita, KS (JFA's national office) on June 29<sup>th</sup>.

Catherine is scheduled to return to Ventura, CA the second week of August to prepare for her 2007-2008 school responsibilities where she will again help deaf and hard-of-hearing children receive a good education.

In a similar vein, Catherine's work with JFA this summer will help truth-challenged secondary and higher-ed students hear and see the truth about abortion!

Please give serious thought and prayer to joining [Catherine's JFA summer mission support team](#). You can help Catherine and JFA shape the hearts and minds of tomorrow's leaders TODAY!

Sincerely,

David W. Lee
