### Justice for All

Justice for All (JFA) has changed my life. I came into this experience expecting to change others views, which I hope I did. However, my faith has been strengthened and I feel better equipped to engage the culture as a result. I learned quickly that by defending the Truth, I have nothing to fear.

I recognize that the success from this outreach was not a result of only my intellect. Rather, it was result of the Almighty using me as an instrument for His precious creation.

**The Justice For All outreach changed my life.**

I felt under-educated regarding abortion and unjustified to dialog on behalf of human life. I quickly realized it does not require superior human intellect to highlight the value of human life. Contrary my culture's values, the value of human beings is not relative.

I had several conversations with students who believed human life has only relative value. All shared one thing in common - confusion. I was amazed by the effectiveness of Truth. More importantly, my faith in God grew. He is Truth, and I serve a great God!

This outreach changed my life. I would participate in another Justice for All Exhibit in a heartbeat! Learning how to engage the culture through Christ's love should be the responsibility of every Christian. My faith was challenged, as well as strengthened. If I am unwilling to exercise my faith, it will become stagnant.

As Christians, we are called to be the salt and light of the world. Therefore, we are to be beacons of the Truth. I never knew what that salt and light looked, tasted, or acted like, until the JFA outreach experience.

Having experienced Truth in a new way, I now desire to proclaim and defend the Truth. Thank you for this opportunity. I am forever grateful for all you have done!
