

A Look Inside JFA's New Dialogue Brochure

Pictured: Pages 1-5 and 8-9 of the 12-Page Brochure

It's perhaps a simple thing to acknowledge the practical and emotional complexity involved in every unintended pregnancy, but it makes a big impression on the person who is wrestling with the question of abortion for the first time. It shows that we have thought about and talked about the issue enough to recognize the obvious facts.

Instead of minimizing the circumstances of rape, incest, health of the mother, and health of the unborn child (because these reasons are behind a very small percentage of abortions), we devote an entire page to them, communicating that they are important to consider. To strengthen the point, we have made "stopping the violence against women" one of our first "next steps" for people to consider in response to the question of unintended pregnancy and abortion.

The brochure starts with the woman. This is a key shift we think makes the conversation with pro-choice advocates much more productive. Instead of focusing only on the baby, we communicate with our printed materials that we care about every human being, including the woman and the baby.

We took one of our 2000 Exhibit panels which volunteers have used most often to guide conversations, and we've expanded it to two pages to make the pictures bigger and the detail easier to see.

Many pages in the brochure feature links to more information, encouraging the reader to go deeper with videos, pictures, sources, evidence, and facts.

In giving the benefit of the doubt to both pro-choice and pro-life advocates, this free speech board comment models one way to create dialogue that can change hearts and minds.

PREPARE FOR CONVERSATIONS

Featured Resource for Equipping Yourself: Learn to use JFA’s new “Invitation to Dialogue” Brochure in the third section of JFA’s updated “Learn at Home” Program. It features a short script you can use to start a conversation with a friend using the brochure. It also includes a longer script that helps you dig deeper into all of the resources referenced in the brochure. The entire “Learn at Home” Program takes just one hour to complete (followed by a conversation you start with a friend), and this portion of the program takes only 15 minutes!

START CONVERSATIONS

Featured Conversation Starter: Use JFA’s new “Invitation to Dialogue” Brochure to start a conversation with a friend in a natural way. (Download the brochure to your phone or request a paper version at the link below.) The brochure begins with an invitation to understand and show concern for women experiencing unintended pregnancy: “Unintended pregnancy is not simple, and it’s not easy.” Then it invites the viewer to consider the question, “Is the unborn a human being with equal rights?” After being warned, the viewer can lift a page to view accurate, graphic images of early abortions, and the brochure asks if the pictures depict a medical procedure or the killing of a human being. Finally, the brochure invites the viewer to explore solutions for unintended pregnancies.

What can I do to love every human involved in unwanted pregnancy?

About the *Loving Every Human Being with JFA* Resource Bulletin

Friends of JFA ask, “What can I do to love every human involved in unwanted pregnancy?” This resource bulletin offers some answers. Supporting JFA financially enables JFA’s trainers and volunteers to create conversations that kindle affection for unborn children and their parents, but beyond that, you can **PRAY** for conversations the JFA community is creating, **PREPARE** for conversations, and **START** conversations.

Pray for conversations. Prepare for conversations. Start conversations.
