Reflection on the Justice For All Outreach

CU-Denver, April 12-13, 2004

Using the following five questions, please write a thoughtful and legible reflection of your experience at the Justice For All pro-life outreach. Since this reflection will be used to improve future outreaches, as well as promote the work of Justice For All, your careful attention to detail and clarity of expression are appreciated. Thank you!

- Was there any experience from the outreach that was particularly noteworthy?
- If you could choose, would you participate in such an outreach again? Why or why not?
- What do you consider to be the most effective aspect of the outreach?
- How valuable for you was the second day?
- What was particularly valuable about the pre-outreach training? How could it be improved?

- 1) The whole thing was ^{▲▲▲}noteworthy. I had a lot of great conversations, but nothing lifechanging.
- 2) Yes! It was very eye opening for me. I got to a "Christian" Southern Baptist University in the heart of the bible belt. The worse I've seen is drunk Preppies! I have never met people who have such liberal, relative, and confused world views. In most cases I found that Abortion isn't even the issue, people are just looking for a place or "issue" to belong to and fight for. I loved the experience!
- 3) Ironically the pictures were the most effective. Many, many people got very upset by the pictures but tough! The truth hurts and people need to know
- 4) 2nd day was extremely valuable. I feel like that was when I really got my groove and knew what to say and what to do! I knew it's a lot of work and extremely exhausting, but well worth it!

③ Training was great but soo long. I felt like we went over the same thing over and over again, kinda redundant! But when you get out there for the first time it's scary and you feel like you didn't get enough training. I don't think any training ~~can~~ extremely prepare you until you get out and do it. To really learn this stuff it must be applied!
