## Making Abortion Unthinkable

*Catherine Wurts' JFA Update*

*April, 2009*

Dear family and friends,

Thank you for your prayers and support for our April outreach in Colorado! We trained 76 Focus on the Family Institute (FFI) students and brought them with us to one of the most liberal university campuses in the nation: CU-Boulder.

Many of the FFI students were apprehensive about discussing abortion around the JFA Exhibit, but they didn't let that stop them from making a big impact! Next month I'll share with you some of their inspiring stories.

For now I want to make sure you're aware of what happening in California over the next three weeks! I would love to see you there...

Christ's Peace, Catherine
