

Training Christians to Create
a Different Kind of Conversation
about Unintended Pregnancy and Abortion

January 26, 2021

Dear Friend of Justice For All,

This morning I saw a comment referring to our recent Instagram post about *Roe v. Wade* (right).

I decided to attempt a conversation, even given the very unfavorable conditions. This post is really a text message format, and it's a public post rather than a direct message. What's more, there are no less than ten distinct assertions or arguments in the comment, and some of them refer to complicated issues for which sound bites aren't helpful.

After a few false starts, I wrote a short response to move the conversation forward, aiming to live out our "Love3" idea by showing equal concern for the pregnant woman, the unborn child, and the person who wrote the post.

Watch the post to see what conversation comes of it. Then share the post and engage others in conversation!

This is just one example of JFA's attempt to tackle one of the most important challenges facing pro-life advocates this year: *getting thousands of conversations started in everyday-life situations*. Please join me in praying for the conversations like this one that we're creating and for insight into the best ways to train participants in our events (see below) to create conversations. We truly need God's help to engage massive numbers of people in meaningful conversations that can help them change their minds about unborn children.

 Steve Wagner, Executive Director

Recent & Upcoming Events (Partial List) — www.jfaweb.org/calendar
